# our amazing journey

Our inspiration began in 1961 when our founder travelled to a rich, fertile valley high in the Himalayan mountains. The people of the Hunza Valley were rumoured to have found the secret to longevity and youth because, despite their forever changing climate, they possessed incredibly soft and youthful looking skin. Their secret was soon uncovered – every man, woman and child would apply precious apricot kernel oil to their face, neck and hands every day, as a protection against the ravages of their harsh environment. The results? Soft, beautiful and youthful looking skin.

It was from this remarkable discovery that Nutri-Rich Oil was created and one of the very first naturally enriched skincare companies was born NUTRITIONAL cosMETICS.

# who we are today

Today, from these humble beginnings, over 200,000 Consultants in 11 countries worldwide distribute Nutrimetics innovative skincare and cosmetic products.

Our product ranges are distributed only via the direct selling channel, as they have been for our entire history. We are a strong believer that our channel offers not only many benefits for our customers, such as a personalised service, but also for our Consultants who can realise their dreams via the incredible opportunity Nutrimetics offers.

# the opportunity
